COCONUT  
TREES

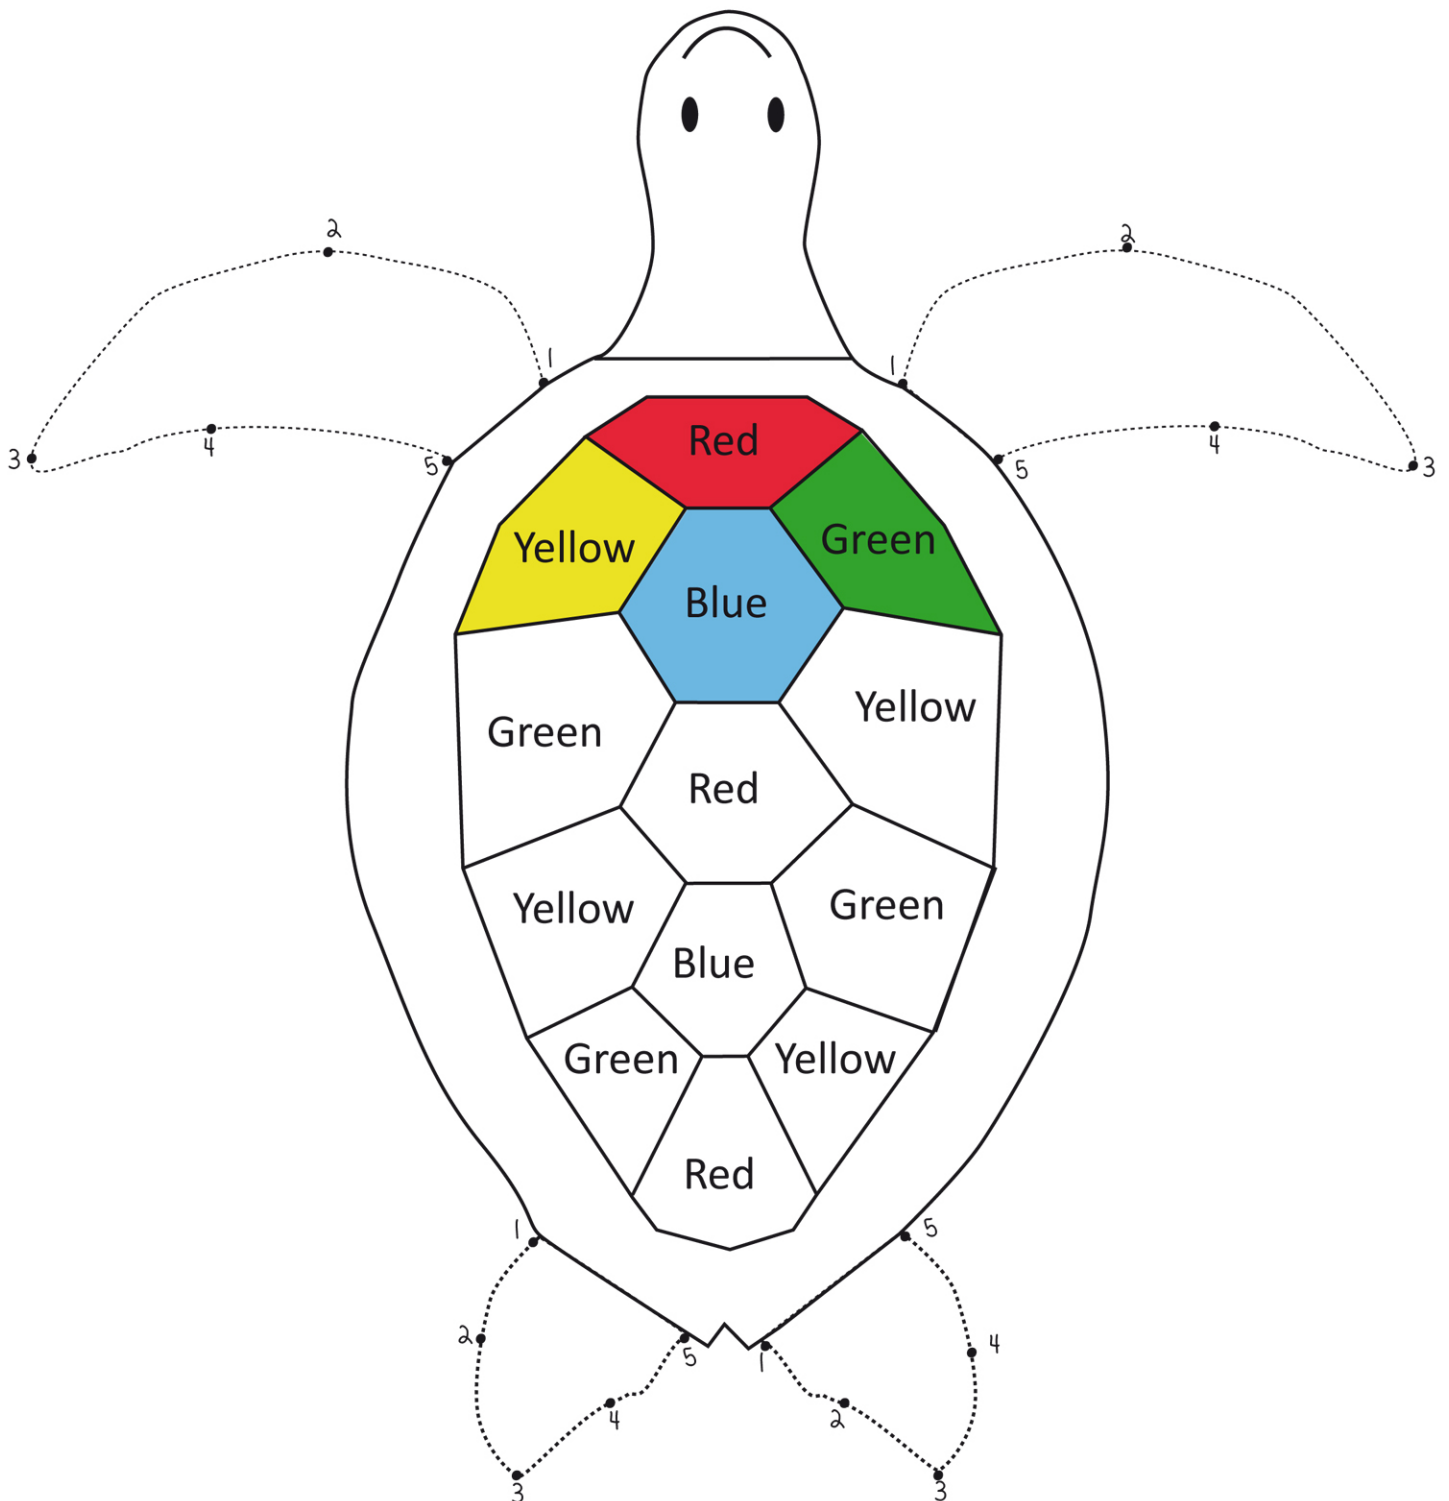

My name is:

Date:

**Directions:** connect the dots. Start from dot 1 and follow the numbers in order.  
Colour the carapace by following the directions below.

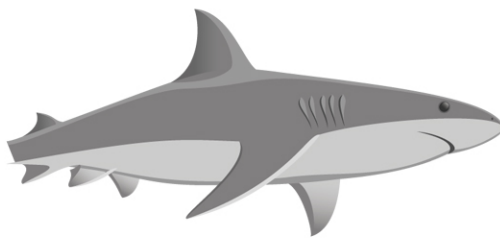

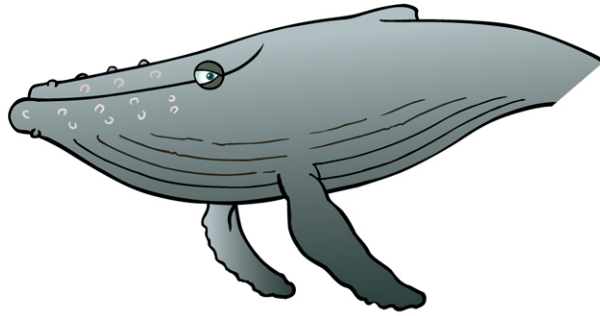

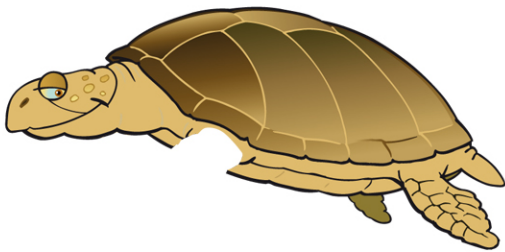

My name is:

Date:

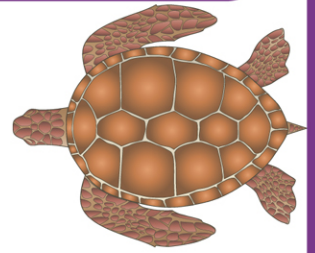

**Direction :** Each animal moves differently. Cut out the labels at the bottom. Find which part is used by each animal for its motion and glue it where it belongs.

My name is:

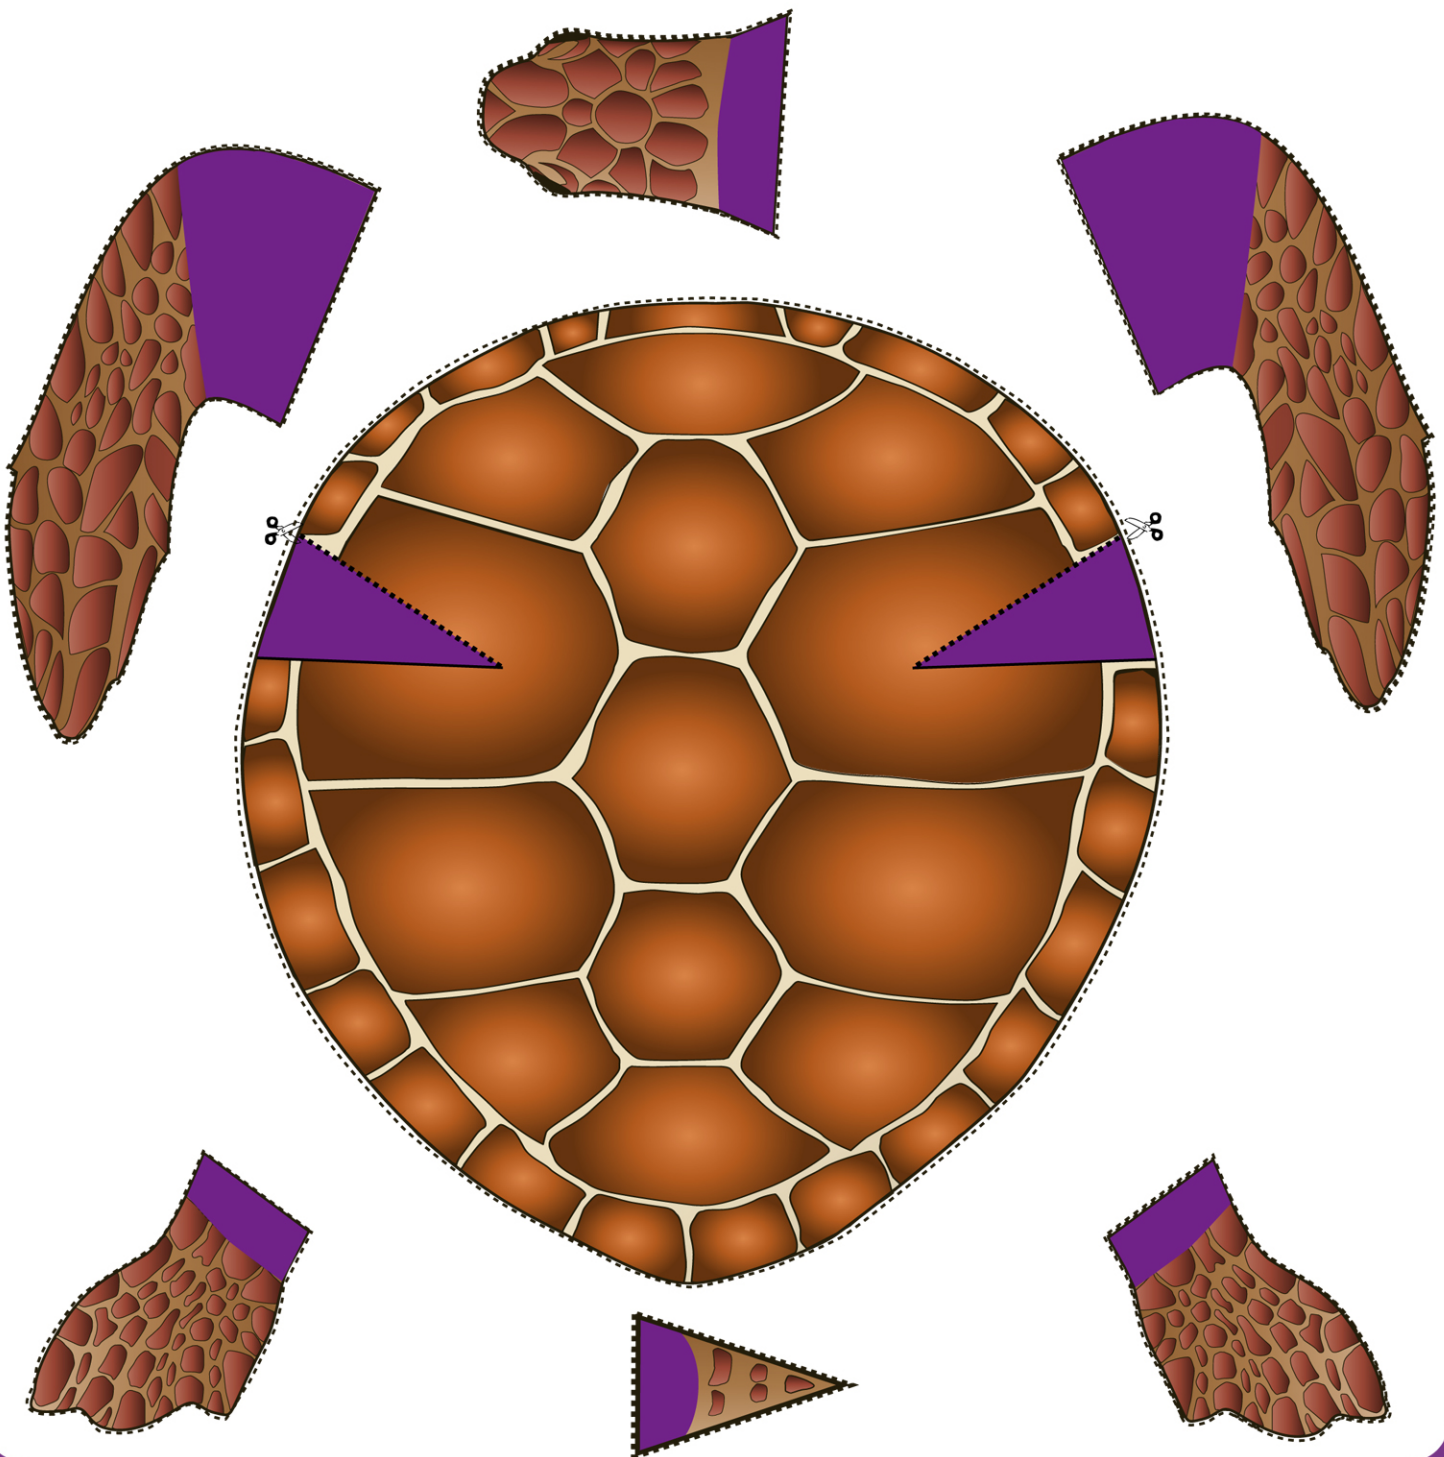

Date:

**Directions :** step 1: cut out all the pieces of the turtle along the dotted lines.

Step 2: on the carapace, cut along the dotted line of each purple triangle. To dome the body, join the two parts of the carapace by connecting the black line with the dotted line that was cut. Place the purple flap under the carapace and secure with glue or staples.

Step 3: using the purple strips, glue or staple the flippers, head and tail under the carapace. Your turtle is ready! Congratulations!

My name is:

Date:

**Direction :** cut out the labels and glue them to the appropriate habitat of each animal (the place where it lives).
