

HOAKA

Species: Green sea turtle
Arrival date: March 7th, 2022

UPON ARRIVAL

Size and weight: 5.2 cm l 20 g

Pathology: found at the surface of the nest, her eyes severely predated with no movement

CURRENTLY

After a very slow growth due to a feeding incapacity, she has now started gaining weight. She lost sight from the right eye, which, thankfully, does not prevent her from swimming and feeding herself.
