

# TANA

Species: Green turtle  
Arrival day : February 18th, 2023

## UPON ARRIVAL

Size and weight : 4.9cm | 25 g

Pathology : Found in the nest with the vitellus little resorbed.

## CURRENTLY

Tana has been treated and is doing much better than when she arrived. We hope to release her as soon as she is old enough to leave the lagoon. In the meantime she is evolving in the resting lagoon.

Te mana o te moana
